Description / Abstract: Preface:
This fourth edition of the IESNA Lighting Ready Reference is a compendium of the most often used materials from the IESNA Lighting Handbook, 9th Edition, published in 2000. It is not intended that this volume replace the Handbook or other IESNA publications, which provide more in-depth treatment on specific technical and lighting application topics, but rather that it offer selected material in a useful, more portable format for "ready reference."

The Ready Reference App has been developed by the IES for Apple and Android smartphone users to quickly find calculation tools, data tables, and information on core lighting principles. The Lighting Handbook published by the IES, and now in its 10 th edition, remains the most complete reference for designers and specifiers, and the app will not replace that reference.
