The Origin of Chronic Inflammatory Systemic Diseases and ...

An imbalanced immune system contributes to chronic inflammation by sending your body misdirected signals that inflammation is still needed long after the initial reason has passed. Studies have demonstrated that women with chronic inflammation have increased levels of certain pro-inflammatory markers such as C-reactive protein (CRP), IFN-gamma, IL-1, IL-6, and TNF-alpha.

What Is Chronic Inflammation - Women's Health Network

Long-term or chronic inflammation, however, can both lead to and result from some severe and possibly life threatening conditions. People with tumors, rheumatoid arthritis, inflammatory bowel...

Inflammation: Types, symptoms, causes, and treatment

Chronic inflammation occurs when your immune system gets set permanently to "on." As a result, it constantly releases a flood of damaging chemicals that could sicken your cells. It's like a forest fire that never goes out.

10 Signs You Have Chronic Inflammation + What To Do

The inflammatory response can be provoked by physical, chemical, and biologic agents, including mechanical trauma, exposure to excessive amounts of sunlight, x-rays and radioactive materials, corrosive chemicals, extremes of heat and cold, or by infectious agents such as bacteria, viruses, and other pathogenic microorganisms.

The Origin Of Chronic Inflammatory Systemic Diseases And ...

Gastritis is inflammation of the lining of the stomach. It may occur as a short episode or may be of a long duration. There may be no symptoms but, when symptoms are present, the most common is upper abdominal pain. Other possible symptoms include nausea and vomiting, bloating, loss of appetite and heartburn. Complications may include stomach bleeding, stomach ulcers, and stomach tumors.
